Atlanta, GA | February 2019 - Current

<https://www.sharecare.com/>

- Digital Health Company delivering an online platform to users, and driving change in the community
- Working primarily with React, Node, Jest + Enzyme
- Developing new and enhancing existing features with stateless, functional components
- Extensive use of ES6 methodologies and new React features such as Hooks and Next.js
- Adherence to a strict pull request process and code review
- Meet exhaustive unit testing requirements in a large, complex application

Software Engineer | The Home Depot

Atlanta, GA | February 2018 – February 2019

<http://blog.onewms.homedepot.com/>

- Worked on HDW application, a supply chain platform development team
- Abundant use of technologies including GCP, Kubernetes, Node.js, Express, React, Selenium, Puppeteer, Docker, Jenkins
- Use of many GCP resources including DataFlow, Stackdriver, Spanner, and BigQuery
- Building scripts to oversee Selenium failures inside an end to end testing environment
- Knowledge and familiarization of Groovy deployment scripts, and GitHub integration
- Work on core application error handling to improve meaningful and succinct reporting for support team
- Triaging production issues using above mentioned tools in large, distributed, microservice application
- Remote device support using android platform tools to track platform responses as users interact with the application
- Agile environment using pivotal tracker, continuous integration and continuous daily deployments

Mobile Applications Developer | Mobile App Hero

Atlanta, GA | November 2017 – February 2018

<https://www.mobileapphero.com/>

- Worked with React Native, Firebase, Expo XDE
- Strengthened responsive design by thoroughly testing and developing applications for specific devices and platforms
- Extensive version control in development and version deployment
- Improved use of higher order components and reusable features
- Began advanced use of React Native stack by working with native phone components
- Truly utilizing and understanding the React component lifecycle
- Expanded knowledge of development lifecycle, and in particular, its role in a small mobile applications shop

Web Developer | Helium Services

Sandy Springs, GA | August 2017 – November 2017

<https://heliumservices.com/>

- Worked with MySQL, Python, React, PHP, S3, SASS
- Used sys, boto3, zipfile, and os modules in Python
- Began to better understand the React methodology and convention
- Wordpress development, largest focus on CSS

<https://www.digitalcrafts.com/>

- 16 Week intensive, full time accelerated learning program
- Learned Python and full-stack JavaScript, including Node.js, PostgreSQL, Express, React, Redux, HTML/CSS, and AWS
- Learned how to build and deploy web applications using internal or external APIs, and dynamically render data in browser
- Introduction to computer science including data structures and algorithms, threading, and memory and process management

Education

Mercer University

2013 - 2016

Chamblee, GA

Stetson School of Business

Bachelor of Business Administration

Auburn University

2010 - 2013

Harbert College of Business

92 Semester Hours

Recent Projects

Sharecare Accessibility Redesign

- Redesign of multiple platform screens and features to meet accessibility standards
- Use of axe for accessibility testing <https://www.deque.com/axe/>

Home Depot One Supply Chain

- Assignment with Home Depot, development and testing of new warehousing application
- Member of production support team, contributing to RF device team
- React/Node application for submission of incidents from warehouse employees, uses ServiceNow and PagerDuty

WreckTech

- React Native application at Mobile App Hero, a buy/sell/trade technology marketplace and community
- Utilizes many React paradigms, and Lodash for data management from firebase
- Conditionally rendered styles using ternary operations inline styling
- React Native Router Flux to control UI actions, and transfer props across application
- Firebase function monitoring changes across application

Community

Active SORBA Member, MTB Atlanta Chapter <https://mtbatlanta.com/>
